Att: Ms. Galina Mankovich, ANP Director

Dear Galina,

It is now $1\frac{1}{2}$ years since I began to volunteer at Millennium. Since the death of my friend, Myrna & her husband, Barry, I went to Millennium each & every Sunday during the lunch period to assist in feeding & just talking to the patients, with whom I developed a bond.

I would like you to know how much I admire Abbas. He is very dedicated to the patients, helping them eat, toileting them, seeing that they're comfortable (swarm on windy days) and comforting them when they are sad or angry. Abbas is a person who needs Millennium to acknowledge & be grateful for.

Laura Fumicella, new to Millennium, also deserves praise for her kindness & for her level of encouragement to the patients who are sad & despondent. Finally, the lunch/medicine ladies, particularly Theresa & Grace, have impressed me by their genuine caring & competence in meeting the needs of each & every patient.

As a longtime educator, I was impressed by the attempts of the staff to meet the multiple needs of the clients, despite the emotionally & physical demands of their jobs.

I thank you for the opportunity my volunteering at Millennium gave me. I hope to hear from you & keep in touch.

Sincerely,
Sally Gladstein Ed.D.
